

ACADEMICS:

North wing walls are being framed in, with the wing closest to Pel Court slightly ahead in the process.

The first half of the basement floor slab has been poured.

Steel Beam construction continues to expand, filling up the center of the new Academics building.

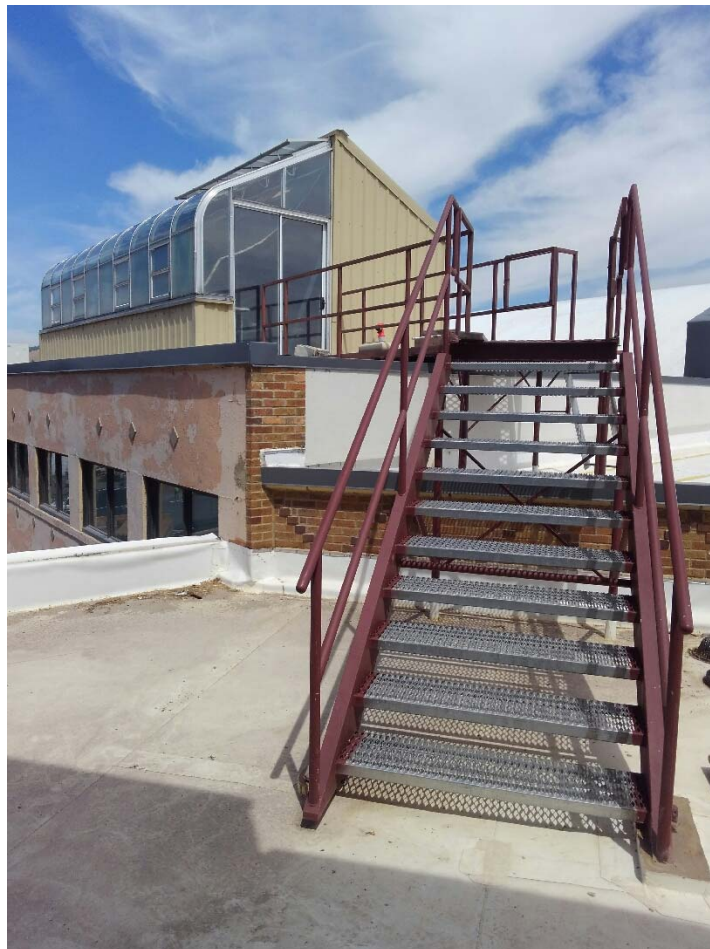

The old windows are being removed and crews are preparing to install the new windows.

The Main floor hallway is being modified into storage spaces...and Student Study Areas

The Second (Main) and Third floors are getting bathrooms plumbed...

...and the greenhouse is becoming reconnected with Academics.
