

ACADEMICS:

North Wing wall progress: Nearly buttoned up!! ...and the Monclaire Street foundation wall is complete.

Second floor joists and the sub-floor sheathing are nearly complete... Third Floor well under way!

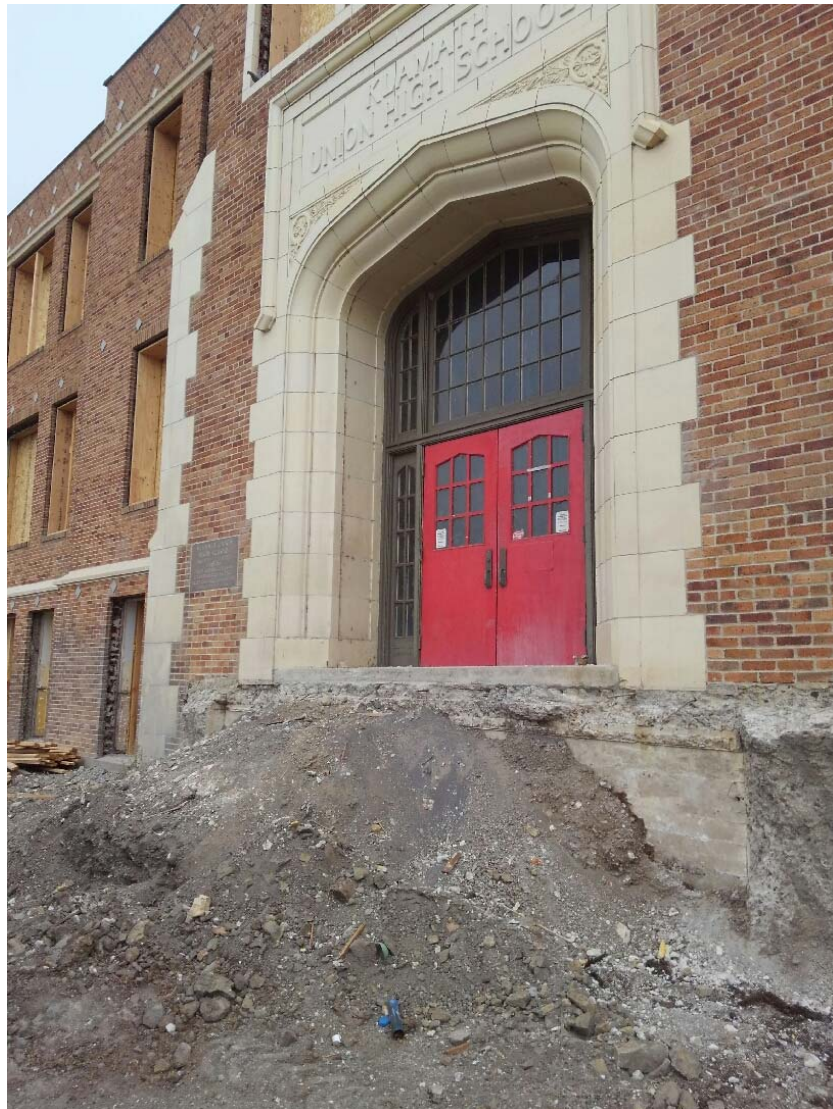

Looking up at the floor joists from the first floor...on the right is the opening for the grand stair case.

Bathroom plumbing is stubbed in for the second and third floor bathrooms.

Sheet Rock is going up all over the building...areas are starting to look like hallways and rooms.

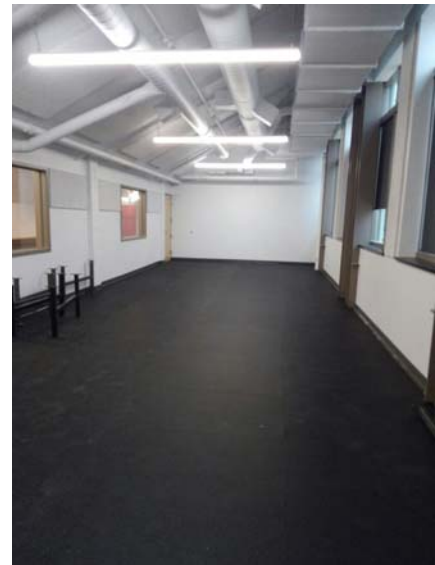

Preparing to build the new student entry steps.

HEALTH & WELLNESS CENTER

Even the Green House got a new coat of paint to match the siding...and no, these are not chin up bars!

The New Weight Room Flooring is in...and the Lifting Racks are being installed.
