Principal's Message

One of my big goals is to be in classrooms as much as possible—it's a great time to interact with students, support teachers and see all the wonderful learning happening in our school.

It's clear that **Growth Mindset** has been a priority at Pelican—it's not just talk.

A **Fixed Mindset** believes that talent alone is linked to success.

A **Growth Mindset** believes that success is a product of hard work. It sees a challenge and Overcoming of struggles as opportunities to learn.

From Kindergarten to 5th—I see and hear a growth mindset in all the classrooms I visit, since day one! It really is striking to see the culture of this mind shift throughout the school. Pelican has worked hard the past few years to use Growth Mindset and it is paying off. It's so amazing hearing ALL our teachers encouraging students and students encouraging others and challenging themselves. Our students are learning that mistakes are opportunities for learning and that with hard work and perseverance, they can achieve great things!

WAY TO GO PIRATES!
