The Graduation indicator displays the graduation rates of all students and historically underserved student group. The rating for the Graduation indicator is the higher of the ratings between the four-year rate and the five-year rate. A student group meets the annual measurable objective (AMO) for graduation if it is Level 3 or higher for either the four-year rate or the five-year rate. A student group must have at least 40 students (combined) in the two most recent cohorts in order to receive a rating.

All students in tested grades and enrolled on the first school day in May must take a statewide assessment. The tables below display the percentage of students who took a statewide assessment by school year, subject, and student group in grades 3 to 5. The tables also indicate whether each student group met the federal participation rate target of 94.5%.

The Academic Achievement and Academic Growth indicators depend upon student test scores. These indicators are valid only when schools uniformly test all students.

Note that non-participants include the following: students whose parents/guardians opted them out from taking the statewide English language arts or mathematics assessments, students who were absent for an extended period of time, students whose parents/guardians requested they not participate for religious or disability related reasons, or students who did not participate due to unknown circumstances.
